

SOVEREIGN KNOWLEDGE CERTIFIED PRACTITIONER PROGRAM

An Invitation from Retained Intelligence

You bring the human. We bring the machine. Together we deliver sovereignty.

THIS IS NOT A RESELLER AGREEMENT

It is not a licensing deal. It is not a franchise.

It is an invitation into a practitioner community built around a single standard: sovereign transformation delivered with rigor, depth, and integrity.

The SKCP Program is the official certification and partnership program of Retained Intelligence. Certified Practitioners are the human delivery layer of the Aegis Sovereign Executive system — the coaches, strategists, and trusted advisors who bring the methodology to life for executives and entrepreneurs who are ready to operate at their ceiling.

The technology belongs to Retained Intelligence. The methodology belongs to the program. The client relationship belongs to you.

YOU LIVE AT AN INTERSECTION MOST PEOPLE CAN'T FIND.

You have the human side — the ability to sit with a high-performing executive, earn their trust quickly, and hold space for the real conversation underneath the presenting problem. You've done it. You know what it costs and what it's worth.

You have the technology side — not engineering, but fluency. You think in systems. You understand what AI is actually doing and you can translate between the human experience and the machine without losing either.

Most coaches can't think in systems. Most technologists can't hold the human depth.

You can do both. You've just been waiting for the right container.

You may be ready if you have:

- An active coaching certification or 5+ years of executive advisory experience
- Demonstrated ability to build trust with high-performing, high-net-worth individuals
- Functional fluency with AI tools and their application in business contexts
- An absolute commitment to client confidentiality — this is the foundation, not a feature

WHAT YOU DO. WHAT WE DO. WHAT GETS BUILT.

As a Certified Practitioner, you deliver the human side of every Aegis Sovereign Executive engagement:

- Initial discovery and coaching to build the client's sovereign system
- Ongoing client relationship management
- Knowledge capture facilitation using the RI methodology
- Strategic coaching sessions as defined by the engagement tier

Retained Intelligence handles everything technical:

- AWS deployment and hosting of each client's Aegis instance
- Platform maintenance, updates, and security
- Aegis methodology and IP development
- SKCP training, certification, and ongoing support

You focus entirely on your client. We handle everything behind the curtain.

A PRACTICE WORTH BUILDING

Onboarding Fee *(one-time, per client)*

Tier	Total Fee	Your Share
Foundation	\$2,500	\$2,125
Partnership	\$3,500	\$2,975
White Glove	\$5,000	\$4,250

Monthly Recurring Revenue

Tier	Monthly Fee	Your Share
Foundation	\$3,000/mo	\$1,800/mo
Partnership	\$7,500/mo	\$4,500/mo
White Glove	\$15,000 - \$25,000/mo	\$9,000 - \$15,000/mo

RI covers all hosting and infrastructure costs from its share. You carry no overhead.

Three active Partnership-tier clients = \$13,500/month to you. That is a practice. Built around your Unique Ability.

YOU CANNOT DELIVER WHAT YOU HAVEN'T LIVED.

Certification is a three-phase Train the Trainer experience delivered directly by Robert Dempsey, founder of Retained Intelligence.

Phase 1 — Methodology Immersion: Full review of the Sovereign Knowledge methodology, Aegis SE system prompt architecture, and coaching discovery framework.

Phase 2 — Platform Certification: Hands-on platform training. Supervised onboarding of a practice client — which may be you. Every practitioner receives their own Aegis SE deployment as part of certification.

Phase 3 — Certification Review: Review of your initial client engagement. Methodology alignment check. Formal certification and welcome into the SKCP community.

What Membership Includes:

- Your own Aegis SE deployment
- Listing in the official RI Certified Practitioner directory
- Access to the private SKCP practitioner community
- Co-marketing opportunities with Retained Intelligence
- Priority access to new features and methodology updates
- Invitation to the annual SKCP Summit
- Eligibility for the annual SKCP Awards: Practitioner of the Year, Client Impact, and Growth Award

THERE WILL BE ONE PRACTITIONER #001.

The practitioners who join this program in its inaugural year are not early adopters.

They are co-architects of a category.

Sovereign Knowledge is an emerging discipline. The practitioners who establish their expertise now — who learn the methodology at its source, while the market is still being educated — will hold a position that cannot be replicated by anyone who comes later.

Founding cohort recognition is permanent. It does not expire regardless of future certification status.

Ready to explore whether this is the right fit? Partnership inquiries are by application only.
